MESSAGE FROM THE GREEN CONVENOR

Stanley Ang

RAIN... RAIN... RAIN...

The recent heavy rainfall had caused flooding across many parts of Singapore and our golf course was not spared. Golfers had their games disrupted and some might have inevitably felt disappointed as they made plans for a game only to be unable to complete it or worse, have it cancelled.

Flooding on the golf course due to an overflowing lake

Species of grass which are unable to withstand flooding will lead to discolouration of the turf (turning yellow or brown) as the turf loses its ability to take in nutrients.

Yellowing of turf following flooding

In addition to impacting playing conditions, floods can cause some serious damages that leave a lasting impact on the golf course. Extreme weather events such as thunderstorms cause severe flooding; the water and satiated condition can then inhibit daily maintenance works and access to many areas on the golf course.

Flooding also damages course structures and other features. Bunkers are especially susceptible to erosion, collapsed faces and sand contamination when floods occur. Repair may require days to complete and can cost thousands of dollars per bunker even if the bunker is lined. Though drainage systems are shaped to direct water away from the sand, they may still experience severe damage during flooding.

Collapsed faces of bunker and sunken holes caused by soil erosion

If the golf course reopens too soon after a flood, the likelihood of secondary damage increases. Saturated green and turf areas can be compacted and rutted by cart traffic as well as concentrated foot traffic. Compacted soil in wet areas can lose its structure, porosity and ability to support high quality turf (greens).

The maintenance team hard at work

There are actions a golf course can take to limit damages caused by severe weather but in the case of a flood, it is difficult to fully mitigate the destructive power of water. The maintenance team needs time to address damage areas and so we seek golfers' patience while the team tries its best to return the course to its desirable playing quality whenever heavy rain leads to a flooding.

Before I end here, please allow me to introduce the members in my Green Sub-Committee:

Edgar Oh

Teoh Guat Bee

M. S. Maniam

GM SPEAKS...

Jinder Aujla

The Club has jumped on the Telegram bandwagon in August to bring members prompt updates on Club news and happenings. Members can expect to receive notifications on golf course closing/opening during inclement weather and course conditions (which is crucial information for golfers as we have been experiencing extremely erratic weather lately) as well as updates on all other areas of the Club. Compared to emails, Telegram is definitely a speedier communication platform for us to reach members. Within a few weeks of the launch of our Telegram channel, the number of subscribers has been very encouraging and many members have also come forward with compliments on the Club's move into Telegram. We hope to have as many members as possible to be part of our Telegram channel, so if you know of any fellow members who have yet to join the channel, encourage them to do so! Simply go to this link <https://t.me/warrengcc> to join. If you are unsure how to get started with Telegram or join our channel to receive updates, please do not be shy to approach our Main Reception for assistance as our helpful Member Relation Officers will be happy to assist you.

This issue of Warren Tidings carries a few important messages for members which I would like to highlight to you here:

1. **Using of Driving Range Balls on the Golf Course**
Range balls are used for practices at the Driving Range. We have however, been seeing range balls on the golf course. Golfers are to note that range balls belong to the Driving Range operator and are not to be taken out of the Driving Range for use on the golf course. Read on page 8 for more on this.

2. **Repairing of Pitch Marks on the Golf Course**
We have always been urging golfers to help to take care of our golf course by repairing pitch marks. The golf course belongs to all of us and all golfers should do their part in maintaining it in its pristine condition. There is a detailed write-up on the importance of repairing pitch marks and a guide on correctly doing so on pages 13 to 15.

3. **Using of Expired Car Decals**
In their regular patrols of the car park, our security personnel have been noticing a number of cars with expired car decals on their wind screens. Despite reminders to members to renew their car decals, there are still some members who have yet to take any action to update their decals with the Club. From 1 September 2021, members without valid decals displayed will not be allowed to park at members' lots. Flip to page 18 for more information on this.

It is unfortunate that WARREN CARES, our social corporate responsibility programme, has not been able to be much in action this year due to the fluid and ever-changing pandemic situation. Aside from a fundraising drive towards the end of last year for our adopted charity, Lakeside Family Services, we were unable to engage their clients in activities or events due to COVID-19 restrictions. As such, the Club has decided to extend the two-year partnership with Lakeside Family Services by another two years until the end of 2023. With the easing of restrictions by the government, we hope to be able to actively organise more activities and programmes with them.

Lastly, happy golfing!

GO GREEN WITH US

Going Green is about learning and adopting eco-friendly practices that minimise impact to the environment. The importance of going green stems from the need to preserve the environment and to live a fulfilling life sustainably.

Extreme weather condition is becoming more widespread across the world including in Singapore and carbon emissions is said to be a direct contributory cause of climate change.

The Singapore Green Plan 2030 was recently launched by the government to position ourselves to achieve net zero emissions as soon as viable, with new sustainability initiatives to change the way people work, study and play.

Sharing the same views on the importance of the need to adopt eco-friendly practices, the Club will be taking steps to roll out measures to go green. The first of such measures will be the cessation of the printing of Club Calendars and the conserving of the use of towels at the Club.

CESSATION OF PRINTING OF CLUB CALENDARS

With a global paradigm shift towards digitalisation, more and more of us have turned to using digital calendars on our phones and computers. Additionally, with work from home arrangements brought about by the pandemic in place, the use of physical calendars at workplaces has no doubt dropped substantially at workplaces.

As such, the Club will be ceasing the printing of physical calendars in any format moving forward. In doing so, aside from reducing wastage, it will also be a step forward to conserve the environment by saving the trees through reducing paper used.

CONSERVING THE USE OF TOWELS

Daily, enormous amount of water and electricity is used for laundry, such as for towels that have only been used once. We can make a difference - by reducing the number of towels used.

Please take only one towel per person and limit them to be used for drying off after shower.

In view of the current pandemic, this would also help the Club to ensure that towels are used in a responsible and hygienic manner.

Please take only one towel per person.

Together, let's go green!

We are on **TELEGRAM!**

Get updates on golf course closure,
Club news, events and promotions
on your phone through Telegram.

Subscribe to the

Driving Range Balls only for Use in the Driving Range

The Club has noticed that some golfers have been taking away range balls from the Driving Range for use in their own golf games on the golf course after practices at the Driving Range. This is strictly not allowed.

Please note:

- Driving Range balls are the property of the Driving Range operator, Muru Golf Academy.
- Range balls are strictly for use in the Driving Range and are not to be removed from the range premises or used on the golf course, practice putting greens, chipping greens and practice bunker.
- Any golfer caught in possession of the range balls outside the Driving Range shall be liable to legal action by the Driving Range operator.

Range Balls are not to be brought out of the Driving Range for use on the golf course (This ball was found on hole 18 fairway)

Meet our Ladies Sub-Committee of Term 2021/2023!

LADY CAPTAIN MAH LI LIAN

“ Some people may know me as a Squash player rather than a golfer as I was a national athlete for many years in the 80s and 90s. I still enjoy many sports and only started golfing more regularly when I joined Warren 5 years ago.

Since then, I have grown to love the game and active community here. I look forward to serving the Club in my capacity as Lady Captain and hope to get to know more members during my term. Please feel free to approach me and have a chat with me. See you around at the Club! ”

LADY VICE-CAPTAIN KINA HUANG

“ 2021 will be my second term serving as Lady Vice-Captain for the Ladies Sub-Committee. Golf is my distraction from the daily work life and stress, and it has become my most important weekly routine (more like escape!) since we were faced with this pandemic called COVID-19.

Golf is mental, physical, strategy and patience all working together just to hit a tiny white ball; the focus for that 4.5 hour takes me to another blissful world and recharges me. I hope this game that I fell in love with will enamour you as much. I have enjoyed playing golf and chatting with all the friendly ladies in Warren and I look forward to another great term with your continued support and participation!

As always, fairways and greens, in life and on the course – quoted from the editor of a Golf Newsletter which I subscribed to. ”

COMMITTEE MEMBER TAN YEN YEN

“ An avid golfer with a long-drawn love/hate relationship with golf. Love the game but hate the UV exposure. Easily one of the most “mummified” golfers on the course; my husband cannot even recognise me when I am fully decked up for my game!

Someone once said that all golfers are masochistic to varying degrees, otherwise we would pick a sport that is less infuriating. I cannot agree more! Looking forward to serving the Club together with my fellow committee members and our Lady Captain. ”

“ A workaholic whose work is built around the vision that women can look and feel ageless at any point in their lives, my traditional Cantonese upbringing shaped my beliefs in offering a holistic approach through plant-based formulations and natural therapies to achieving inner and outer beauty wellness goals. As a result, the company Holistic Anti-Ageing Project and the brand Meditrina were created with my mentor.

I work with spas and beauty salons to make ageing gracefully an enjoyable therapeutic experience, and have since launched the products on digital channels.

When not typing on my MacBook, I enjoy whacking balls at the driving range, playing a round of golf, flipping through Flipboard or catching up on crime dramas.

I look forward to fostering a close sense of community and connection among my fellow lady golfers in Warren Golf & Country Club. ”

COMMITTEE MEMBER RISA LEONG

COMMITTEE MEMBER NINA UM

“ I have a great passion for golf. Everything I do, I try to do with a combination of passion, dedication and hard work.

As a member of the Social Sub-Committee, I hope that I can contribute positively to benefit the Club. ”

#bornelectric

THE iX3

DRIVE WHAT'S NEXT

What's next in BMW Electromobility is already here. The BMW iX3 packs an impressive range of up to 460 km. And with a high charging capacity of up to 150 kW, hitting a level of 80% in just 35 minutes, it not only takes you further but faster. What's more, there's intelligent driver assistance, panoramic sunroof, spacious interior, and supreme sound system. Step in today and get ready for a ride that's as luxurious as it is exhilarating.

Experience what's next with the BMW iX3 at bit.ly/thebmwix3 or call **6269 6777**.

Meet Aloysa Atienza!

22-year-old Aloysa Atienza just joined the Club this year and is already catching attention.

Aloysa was only selected to join SGA under the Development Squad in 2020 and has been showing great results since. She came in 2nd in the Ladies Division of the 73rd Singapore Amateur Open Championship (SOAC) 2021 and won the Amateur Division of the Pro Series Invitational presented by FTAG!

(Photo Credit – SGA)

We spoke to Aloysa to have her share more about herself!

Can you share with us a little background about yourself?

I have been playing golf for 11 years and am currently in the SGA Development Squad. My golfing dream is to become the best female golfer in Singapore and play on the LPGA one day.

We understand that you are currently in NUS. How do you balance between university studies and golf?

Yes, I'm studying Civil Engineering in NUS and that means there's a lot of lab work needed. I definitely struggled initially since a game on the golf course would take more than 4 hours. I had to make a lot of sacrifices such as lesser time to socialise with my friends. I think the game changer for me was finding the right group of friends in school who understand my dream of playing on the LPGA. They helped me when I was falling behind in classes and took notes for me when I had to miss classes for competitions.

How did you start picking up golf?

My dad was the one who introduced me to golf at a young age. He took me to the driving range and eventually, I started taking up lessons at Mandai. It was until I won my first golf tournament that I really fell in love with the sport. I loved the adrenaline and that's what kept me going. I just love that feeling and want to create that moment every time I play.

What made you decide to join Warren as a member?

I was initially a junior member at Seletar, where my dad was a member at. After I became too old, I had to find somewhere to continue training at. I heard Warren had a lot of lady golfing members and they also had a Lady Membership which is the cheapest membership my parents could afford so why not! I heard the conditions are great and the putting greens are like Sentosa's too!

Being a very new member of the Club, we would love to hear your thoughts about the Club and its golf course so far!

The members at Warren are really friendly and I never had difficulty settling in when I first joined. Even the marshals are really friendly people! I love the golf course and the conditions are always kept really good!

What do you hope to achieve in golf?

My goal is to become the best female golfer in Singapore and play on the LPGA Tour.

Lastly, what do you LOVE most about golf?

What I love most about golf is that no matter how good you are, the road to mastery is a never ending one. There is always something you can learn even if you just won a major championship on the LPGA or PGA. You just keep improving and improving no matter what number is signed on the scorecard at the end of the round.

Catch a special video interview with Aloysa [HERE!](#)

Warren Junior Justin Kuk Fights On to Win Back-to-Back National Ranking Games

Contributed by Kuk Hun Yi, Warren member

In the first resumption of local golf tournaments during this latest Phase 2 period, Warren Junior and National Squad player, Justin Kuk, grinded through tough competition to finally win Singapore Golf Association's (SGA) 1st National Ranking Games (NRG) held between 15 and 17 June 2021 at Sentosa Golf Club's championship New Tanjong course.

The participants were fortunate to be able to compete on Sentosa's championship New Tanjong course, the same course which hosted the LPGA's recent HSBC Women's World Championship earlier in the year. The pristine new Tanjong course tested all facets of the participants' games, with difficult-to-read greens and rough grass grown high to put a premium on hitting the fairways and greens.

Warren Junior Justin Kuk with his championship trophy

Warren Junior Justin recovered from trailing SICC's Ryan Ang, Warren's Zhe Rong and Seletar's Eng Wei Jin after the 1st day of play to overtaking his opponents on the 2nd day with a slender 1 and 2 shot margins over Wei Jin and Ryan respectively. On the 3rd and final day of play, Justin, Wei Jin and Ryan were all tied at hole 16, when Justin finally broke through to sink a 20-foot putt on the par 3 17th hole at Tanjong course to take a 1-shot lead. In a nail-biting finish, Justin finally managed to close out the competition winning by a 2-stroke margin when both Wei Jin and Ryan dropped shots at 17th and 18th holes respectively. Justin finished the tournament with an aggregate even score of 216 (73, 72, 71).

Justin on Tanjong's 5th hole

Reflecting on the competition after his final round, Justin commented, "It was a tough week to grind out a win at the Sentosa Tanjong NRG. The swing for the first 2 days wasn't good but I kept on challenging myself to post a score even when some parts of my game were not going well. Congrats to Wei Jin and Ryan who pushed me all the way. Thank you to SGA and Sentosa Golf Club for holding this NRG."

This NRG win at Sentosa Tanjong is Justin's 2nd win from his 2nd competition start of the year, as he also won the 4th NRG of 2020 held earlier in the year in March 2021 at Seletar Country Club.

Other results of Warren members from this 1st NRG:

- Aloysa Atienza – Ladies 5th position with aggregate score of 226 (74, 77, 75)
- Inez Ng – Ladies 6th position with aggregate score of 226 (76, 73, 77)
- Tatiana Ang – Ladies 12th position with aggregate score of 240 (78, 78, 84)
- Chen Xing Tong – Ladies 14th position with aggregate score of 249 (83, 87, 79)
- Kimiko Ang – Ladies 15th position with aggregate score of 249 (83, 87, 79)
- Sean Pang – Men's 10th position with aggregate score of 234 (83, 75, 76)
- Andre Chong – Men's 13th position with aggregate score of 238 (80, 86, 72)
- Yap Tze Rong – Men's 14th position with aggregate score of 238 (71, 85, 82)

This 1st NRG may represent the first steps back towards normalcy as a slew of golf tournaments were cancelled earlier due to social distancing restrictions. Many thanks to SGA and Sentosa Golf Club for organising and hosting this event to give our local high performance players the opportunity to compete again after such a long hiatus.

Repairing Pitch Marks

by Green Sub-Committee

Our course staff have done a fantastic job on our putting surfaces this season, and given the COVID-induced restrictions to playing numbers, the high traffic on the greens have them stressed and soft at the moment. However, with this comes an increase in the likelihood of pitch marks from players approaching the greens.

Not only do they make a green look unsightly and of poor quality, pitch marks can affect ball roll and cause a player's putt to bobble and deviate offline. Given this double negative effect on the putting greens, it is astounding how many pitch marks are left unattended (or incorrectly repaired) by our members each and every day.

A correctly repaired pitch mark will recover in 24 hours. An unrepaired pitch mark left unattended for two hours will take up to two months (or longer) to recover. A pitch mark that is incorrectly repaired can take up to four weeks to effectively recover.

It is essential that all players are diligent in their repair of pitch marks on the greens.

With the 2019 rule changes, it is allowable – and even encouraged – for golfers to repair almost any damage on the greens, such as spike marks, ball marks, indentations from a club or flagstick, and animal damage although you are not permitted to repair aeration holes, natural surface imperfections or natural wear of the hole.

Why It's Important to Repair Your Ball Marks on the Green

Ball marks are the bane of smooth-putting and healthy greens on golf courses all over the world. They are the little depressions, or craters, sometimes made when a golf ball descends from the sky and impacts the putting surface.

It's not fun to have to putt across a golf green that is pitted by unrepaired or poorly repaired ball marks. (Ball marks are often called pitch marks, and repairing a ball mark is called, by some golfers, "fixing a divot on the green.") Those old ball marks, or the one your approach shot just left on the green, can knock an otherwise good putt off line.

Repairing those little depressions is very important. Equally important is doing it the right way. Because while many golfers fail to repair ball marks — and shame on them — there are also many well-meaning golfers who do "repair" the pitch marks, only to do so incorrectly.

A ball mark can cause the grass in the depression to die, leaving not just a scar but also a pit in the putting surface that can knock well-struck putts offline. Repairing a ball mark restores a smooth surface and helps keep the grass healthy. But "repairing" a ball mark incorrectly can actually cause more damage than not attempting to repair it at all, according to a study done at Kansas State University (KSU).

The KSU researchers found that incorrectly "repaired" ball marks take up to twice as long to heal than those that are properly repaired.

So golfers, let's all start fixing our ball marks and doing it the right way. And if you have a moment — if there isn't another group of golfers behind you waiting for you to clear the green — fix one or two other ball marks, too, if you find more of them on the green.

Repairing ball marks isn't just important for the health of the greens, and for smooth-rolling putts. It isn't just a matter of golf etiquette. It is our obligation to help take care of the golf courses we play. And repairing ball marks is a big part of that obligation to the game.

How to Repair a Pitch Mark

The ball mark repair tool is the right tool for the job of repairing ball marks. The tool should be familiar to every golfer; it's a simple tool, just two prongs on the end of a piece of metal or hard plastic.

There are some newfangled ball mark repair tools on the market, but the jury is still out on whether any of them really do a better job at helping greens heal than the standard, old-fashioned tool pictured above.

(By the way, you'll sometimes see this tool referred to as a "divot repair tool." Any golfer who hears that term (divot repair tool) will likely know that it is a reference to the tool pictured above. That's despite the fact that most golfers also think of divots as something very different from ball marks/pitch marks. A divot is the piece of turf shaved off by a well-struck fairway iron shot, or the resulting bare-dirt depression left behind. Also, golfers do understand that fixing a divot has a different meaning than fixing a pitch mark.)

The ball mark repair tool is an essential piece of equipment that every golfer should have in his or her golf bag. Many times, golf courses give them away free, and even if there is a charge (by a golf course or a retailer), it is typically very cheap.

Note: Ball Mark Repair Tool can be collected from the Starter's Hut.

Step 1 in Fixing Ball Mark: Insert the Tool

The first step in repairing ball marks is to take your ball mark repair tool and insert the prongs into the turf at the edge of the depression. Note: Do not insert the prongs into the depression itself, but at the rim of the depression.

Next Step: Push Edges of the Ball Mark Towards the Centre

The next step is to push the edge of the ball mark towards the centre, using your ball mark repair tool in a “gentle twisting motion,” in the words of the Golf Course Superintendents Association of America.

This is the step where golfers who incorrectly “repair” ball marks usually mess up. Many golfers believe the way to “fix” a ball mark is to insert the tool at an angle, so the prongs are beneath the centre of the crater, and then to use the tool as a lever to push the bottom of the ball mark back up even with the surface. Do not do this! Pushing the bottom of the depression upwards only tears the roots and kills the grass.

So remember:

- **Wrong:** Using the prongs as levers to push up the bottom of the depression.
- **Right:** Using the prongs to push grass at the edge of the depression toward the centre.

Just use your ball mark repair tool to work around the rim of the crater, so to speak, pushing the grass at the edge towards the centre of the depression. One way to envision this is to picture reaching down with your thumb and forefinger on opposite sides of the ball mark and “pinching” those sides together.

NOTE:

Finish the Repair: Smooth Over and Admire Your Work

Once you’ve worked around the rim of the ball mark with your repair tool, pushing the grass towards the centre, there’s only one thing left to do: Gently tamp down the repaired ball mark with your putter or foot to smooth the putting surface.

Then admire your work and pat yourself on the back for helping to take care of the golf course.

C O L L E C T I O N

Warren Cares

WARREN CARES is the Club's Corporate Social Responsibility (CSR) initiative launched in November 2017 with the following objectives:

- A great way for the Club to contribute to the society
- Provides a good and meaningful platform for Club members and employees to bond with one another and also with their families while engaging in volunteer activities
- Increases the Club's visibility as it brings us closer to the community

The Club has adopted **LAKESIDE FAMILY SERVICES** as WARREN CARES' beneficiary for two years (2019-2021). Due to the pandemic, the Club has been unable to hold activities with them over the past 1.5 years. In view of this, the Club has extended the adoption of Lakeside Family Services for another two years (2021-2023).

Our
Adopted
Charity

LAKESIDE FAMILY SERVICES

About Lakeside Family Services

Lakeside Family Services is a charity which has served the community for the last 26 years, regardless of race, language, or religion. They are an Institution of a Public Character (IPC) and a member of the National Council of Social Service (NCSS).

What Lakeside Family Services Does

Develop resilience in disadvantaged children

Mould troubled youths into contributing individuals

Empower seniors to help vulnerable seniors

Assist ex-offenders in reintegrating into society

Help women with unsupported pregnancies

Located mainly in the west, Lakeside Family Services runs the following:

1. Two Family Service Centres (Jurong East and Jurong West)
2. Two Student Care Centres (Jurong East and Jurong West)
3. One centre providing specialised help for families of the incarcerated (Taman Jurong)
4. One centre for children & youths at risk ("The Grit Project" at Jurong West)
5. One centre for seniors' wellness ("Kaki Kampong Seniors Wellness Centre" at Corporation Road)
6. One Family Resource Centre (Changi)
7. One residential respite for women with unsupported pregnancies (Novena area)

We would like to take this chance to thank all members who have supported **WARREN CARES** all this while.

We are excited to continue our partnership with Lakeside Family Services. Do keep a lookout for upcoming activities and programmes with them, and we hope that members will continue to give us your support!

PLEASE USE A VALID CAR DECAL

This is the only valid car decal that members should use:

We have noticed that many members are still displaying expired car decals on their windscreens.

We would like to remind members that those who wish to park at designated members' parking lots would **have to display a valid car decal** (refer to below) prominently on the front windscreen of their cars.

In view of the gradual lifting of restrictions on dining and sports activities, an increase patronage of the Club is expected. As such, usage of the limited number of designated members' car park lots would have to be properly regulated, with priority given to members with valid car decals displayed, on a first-come-first-served basis.

With effect from 1 September 2021, members without valid car decals will be directed by the Club's Security personnel or officials to park at visitors' lots.

If you need to obtain a current Club car decal, please contact our Membership Department at Tel: 6586 1219/250 or Email: membership@warren.org.sg.

Thank you for your co-operation.

LIFESAVING JUNIOR SEALS PROGRAMME

by Torpedo Swim School

The Junior Seals Programme equips your child (10 - 16 years old) with the essential rescue skills needed in an emergency situation. A Junior Seal Lifesaver develops water safety, confidence and endurance to execute basic rescues. Not forgetting the FUN element of learning through the exposure to lifesaving sport.

The in-house certification is a progression for your child as they prepare and pick up various lifesaving skills before progressing to take certification issued by the Singapore Life Saving Society (SLSS).

Fees (1 term*):

Member - \$230.05 nett | Member's Guest - \$294.25 nett

*12 sessions per term (3 months); Intakes – January, April, July & October

Day/Time:

Every Wednesday, 5.00pm – 6.00pm OR 6.00pm – 7.00pm

Note:

- **A minimum of 2 students is required to start a class**
- **Maximum 5 students per class**
- **Fees are inclusive of GST**

Frequently Asked Questions

What is lifesaving?

A hidden gem in Singapore, Lifesaving sport is one of the few humanitarian sports in the world to equip lifesavers to become better. Lifesaving sport was introduced to further develop and demonstrate lifesaving skill and fitness in both the pool and ocean. Find out more about lifesaving sport here: www.lifesaving.sg.

Who can take part?

The Junior Seal Programme is suitable for children aged 10-16 years old who are able to swim 100 meters of any recognised stroke.

The Lifesaving Pathway

10 - 13 years old Students attain their Torpedo Junior Seal 1, Torpedo Junior Seal 2 and Torpedo Junior Seal 3 certifications, and compete in junior competitions	➤	14 - 16 years old Students can progress to attain SLSS Lifesaving 123, CPR, and Bronze Medallion (BM) certification and train to be an elite junior athlete	➤	16 years old and up Students have the opportunity to be a certified lifeguard, represent tertiary institutes, and compete at National level competitions
---	---	---	---	--

Who is the coach?

Coach Grace was part of the 2018 National Lifesaving Team. In that same year, Grace achieved 4th place for the 12.5m Line Throw, the highest placing that Singapore has attained on the world stage.

As the 2018 National record holder and accredited NROC Lifesaving Instructor; Coach Grace's ambition is to inspire the next generation of young lifesavers to immerse themselves in the sport.

For enquiries, please contact Torpedo Swim School via Whatsapp @ +65 8482 1982
or email @ lifesaving@torpedoswim.com.sg.
