MESSAGE FROM HOUSE CONVENOR

Desmond Liew

Dear fellow members

In the September/October issue of WT, our Club Captain urged us to “go out and enjoy the camaraderie that the game of golf provides and offers”. May I add, as an extension of that, let us also take full advantage of the wide range of activities, services and facilities our Club offers.

To ensure these experiences remain enjoyable, it is essential that we keep our “house” in good order. This involves repairing damaged structures, refreshing worn-out building finishes, replacing or repairing malfunctioning equipment, re-fixing dislodged fixtures, eliminating clutter and practise good housekeeping.

The list of tasks seems endless, but addressing them early can prevent bigger problems in the future. Let me share a quick story: Once, there was a house with a small leak in the roof. The owner thought, “It’s just a few drops, no big deal.” But over time, the small leak grew, weakening the ceiling and cracking the walls. Eventually, the repairs became far more expensive than if the issue had been fixed at the start.

The same principle applies to our Club’s maintenance. Small problems, if left unattended, can become larger and more costly. That is why our dedicated maintenance and housekeeping crew focuses on preventive maintenance. As our buildings age, wear and tear increases, hence we are developing a programme that systematically inspects, services, and addresses areas before they break down.

Can we help? Certainly! We all have a role in preserving the Club’s facilities and minimising maintenance costs. Here is how we can contribute: handle equipment and furnishings with care, keep areas clean and tidy after use, and promptly report any issues or damages so they can be addressed quickly.

By being mindful of our surroundings and respecting the Club’s facilities, we help ensure they remain enjoyable for all members and guests. Our cooperation is essential in maintaining a well-kept and comfortable environment.

As our Honorary Treasurer reminded us in the July/August issue of WT, reducing waste is also a way to control costs and conserving the Club’s resources. These actions not only support our commitment to adopting sustainable practices and reducing our carbon footprint but also help keep our Club’s environment clean, maintain its ambience, and enhance its overall appeal.

Let us take pride in our Club. Together, through our shared responsibility and care, we can keep it in pristine condition, regardless of its lease renewal status.

Thank you for your continued support.

GM SPEAKS...

Jinder Aujla

Dear Members,

As we approach the festive holiday season, the Club is filled with excitement as we prepare a spectacular line-up of events and activities for everyone!

Mark your calendar for 16 November as we kick off Christmas celebration with our Beary Christmas Light-Up! Join us for an enchanting evening featuring a magic circus show, an entertaining puppet show, and heartwarming Christmas carolling. Do not miss your chance to meet Santa Bear, and capture precious moments with Santa and Santarina. This is a wonderful opportunity to gather with family and friends and soak in the festive spirit so join us in this fun evening.

We are also excited to launch our exclusive Social Transferable Membership Promotion on 16 November. This is a fantastic way to introduce your friends to the Warren family, and through our Member-Get-Member scheme, you will be rewarded when they sign up. More details can be found on the ensuing page.

In the spirit of giving, Warren Cares will be rolling out a fundraising campaign in support of our current beneficiaries - SASCO Senior Citizens' Home and Sunbeam Place – as well as other charities that we plan to assist in the future. Your generosity can make a significant difference in the lives of many, and we encourage all members to participate by donating. Stay tuned for more information, and we appreciate your support in making this campaign a success!

On the golfing front, we have even more reasons to celebrate. Our golfers have recently done us proud both locally and internationally. Our Warren Ladies have once again demonstrated their excellence by winning the prestigious SLGA Cup for the 6th consecutive year! A special congratulation too, to junior member Sydnie Ng, who clinched the Girls' B Division (Under-16) title at the Singapore Junior Masters. Additionally, Inez Ng achieved an impressive win by eight strokes at the Cavalier Regional Preview at the University of Virginia's Birdwood Golf Course. What's more? Maggie Koh and Catherine Kwek made history as the first Singapore and Asia winners of the International Pairs World Tournament. We are incredibly proud of all their achievements and look forward to even more success from our members.

I am also happy to share that solar panels have been successfully installed on the roofs of the Main Clubhouse, Sports Complex, Driving Range, and Golf Course Maintenance Complex. These panels will now supply approximately 20% of the Club's electricity needs with renewable energy. This is a significant step towards reducing our carbon footprint and contributing to a greener future.

Due to weather conditions, the cables supporting the safety netting at the Driving Range had broken over time, causing the netting to sag and allowing range balls to escape the area, posing a potential safety risk to golfers. Golfers will be pleased to know that the netting has been adjusted and realigned. This will prevent further range balls from leaving the Driving Range, ensuring a safer environment for all golfers on the course.

Looking ahead, we are thrilled to introduce some exciting yearend monthly and daily specials at our F&B outlets. Be sure to try our Christmas platter - a culinary delight that tantalises your taste buds. To elevate your dining experience, we will also be offering irresistible promotions on whisky, wine, and beer.

As the year draws to a close, we wish you and your loved ones a Merry Christmas and a Blissful New Year. May it be filled with joy, laughter, and the warmth of good company!

A Tribute to Uncle Sam

It is with great sadness that we bid farewell to our beloved coaching professional, Shamuri Sedek, who passed away on 20 October 2024.

Affectionately known as “Uncle Sam,” Shamuri Sedek was a familiar and cherished figure among Warren golfers.

Uncle Sam began his journey with Warren Golf & Country Club (then known as Warren Golf Club) at just 23 years old in November 1974, managing the Pro Shop and teaching golf at the old club location on Folkestone Road. In 1977, he took over the running of the Pro Shop, a role he held until 1999 when the Club moved to its current location in Choa Chu Kang. Even after stepping down from managing the shop, he remained a dedicated Golf Professional with the Club.

His passion and commitment to coaching golf remained steadfast throughout his long and distinguished career. Uncle Sam devoted himself to teaching golfers of all ages, from children just picking up their first clubs to seasoned adults looking to refine their skills. His dedication went beyond the formal lessons - he would often offer helpful tips and advice to golfers at the range and practice green, even when it wasn't required of him. Whether working with beginners or advanced players, Uncle Sam's golfing knowledge left a lasting impact on everyone he encountered. His willingness to share his expertise, purely out of his love for the game and desire to help others improve, is a testament to the deep passion that defined his career.

Rest in peace, Uncle Sam. You will be dearly missed by all at Warren.

A warm WELCOME to our new members...

SOLAR ENERGY FOR THE CLUB

Towards the end of last year, we embarked on a decision to transition to a cleaner energy source with the installation of photovoltaic (solar) panels on our roof spaces.

After a tumultuous journey, marked by challenges from the steep pitched roofs, inclement weather, and various project management issues, the project has finally been completed.

Solar panels are now in place on the roofs of the Main Clubhouse, Sports Complex, Driving Range, and Golf Course Maintenance Complex.

A total of 1,034 pieces of solar panels have been installed, capable of generating a total of 599.72 kWp of energy, which accounts for about 20% of the Club's electricity needs.

Following the successful connection of the solar panel cables to our electrical system over two nights, on 10 and 26 September 2024, we began harnessing solar energy on 27 September 2024.

We thank you for your patience and understanding during the installation period.

Driving Range Safety Nettings

Weather conditions had caused the cables securing the safety nettings at the Driving Range to break, resulting in the nettings to sag. As a result, range balls were flying out of the Driving Range, creating a potential safety hazard for golfers.

We are pleased to inform golfers that the safety nettings have now been realigned and adjusted. This should prevent any further issues with range balls flying onto the golf course, enhancing the safety of golfers on the golf course.

Embarking on Your Strength Training Journey: A Beginner's Guide

Congratulations on taking the first step towards strength training! This powerful form of exercise offers numerous benefits for your health, longevity and overall performance. As you begin this exciting journey, remember that becoming stronger will make many aspects of your daily life easier. Let us dive into some practical advice to help you start your strength training adventure with confidence.

The Simplicity of Effective Strength Training

Contrary to popular belief, effective strength training is not complex or dangerous. It is all about mastering basic movement patterns and gradually increasing the weight you lift. Let us break down the essentials to get you started on the right foot.

Seven Fundamental Exercises to Master

Begin by focusing on these key movements:

1. Goblet Squat
2. Reverse Lunge
3. Romanian Deadlift
4. Glute Bridge
5. Push-up
6. Dumbbell Row
7. Plank

Mastering these exercises will build a solid foundation for safe and effective strength training.

Designing Your Workout Schedule

Choose a workout frequency that fits your lifestyle:

- Twice a week: Full body workouts each session
- Three times a week: Alternating lower and upper body workouts
- Four times a week: Two lower body and two upper body sessions

Pick the option that works best for you and stick with it consistently.

Crafting Your Workout Plan

While working with a personal trainer can take the guesswork out of programme design, you can also create your own plan using these guidelines:

- Include 4-6 exercises per workout
- Perform 2-4 sets of each exercise
- Start with compound movements (e.g. squats, presses, lunges, rows)
- Begin with heavier weights (5-8 reps) and progress to lighter weights (10-15 reps)
- Aim for a difficulty level of 7 out of 10 for each set
- Prioritise proper form over lifting heavier weights
- Find a balance between challenging yourself and avoiding excessive soreness

Remember, strength training should be enjoyable and challenging while enhancing your quality of life.

Key Takeaways for Success

1. Focus on mastering basic movements before adding complexity
2. Consistency is key. Stick to your chosen workout schedule
3. Gradually increase weights as you become stronger
4. Listen to your body and adjust as needed
5. Do not chase soreness. Instead, aim for steady progress

As you embark on this strength training journey, embrace the challenges and celebrate your progress. With dedication and patience, you will soon reap the rewards of a stronger, and healthier you. Good luck and enjoy the process of becoming your strongest self!
